

When a green lizard and a gecko become friends, they learn all about each other's diets. The green lizard learns how the gecko searches for food, and then the gecko learns the same from the green lizard. With their new knowledge, the two reptiles decide to switch habitats. Do you think they will survive in their new environments?

Room to Read seeks to transform the lives of millions of children in developing countries by focusing on literacy and gender equality in education. Working in collaboration with local communities, partner organizations and governments, we develop literacy skills and a habit of reading among primary school children, and support girls to complete secondary school with the relevant life skills to succeed in school and beyond.
